

WICKLANDER-ZULAWSKI

Interview Training for the Private Sector

PROVEN METHODS

For over 35 years Wicklander-Zulawski & Associates, Inc has been providing ethics, human resources, employee relations, asset protection, loss prevention, auditors, operations, sales, recruiting, educators, and forensic fraud professionals with morally, legally and ethically acceptable methods for obtaining the truth in the workplace. Our expert instructors are all Certified Forensic Interviewers and understand the delicate balance of identifying malicious dishonesty without damaging morale and productivity.

WZ's seminars provide answers to questions sought in the realm of professional interviewing, great networking, and immediate problem-solving solutions. Participants are taught critical components including investigative prep procedures, physical and verbal recognition skill sets, proper question development and strategy, as well as the art of empathy during sensitive communication. Courses are constructed with a blend of lecture, workshop exercises, and case videos of real investigatory interviews conducted by WZ practitioners. Hundreds of organizations choose WZ annually for in-house training in order to incorporate their company culture, language, and policies into the workshop atmosphere, achieving targeted goals and objectives.

HOST YOUR OWN CLASS

A WZ contract program offers the agency a specific number of attendees at a rate determined by the number of days (2-4) of the workshop. This allows an organization to estimate its costs accurately, and to train more investigators at a bulk rate typically less than WZ's open registration programs. The participants who attend the contract programs are employees or guests of the contracting organization or agency. Professionals from other agencies may be invited at the discretion of the contracting organization.

Benefits of a Contracted Seminar

- Seminars can be scheduled to accommodate preferred dates or around organizational meetings to make the most of travel costs.
- WZ customizes the workshop to achieve targeted objectives designed by your organization and leadership teams.
- WZ instructors are Certified Forensic Interviewers (CFI) and internationally recognized subject matter experts
- The client controls the logistics to ensure maximum value and ROI (location, start & finish time, ratio of workshop to lecture, specific needs, etc.)
