## Interview Training for Federal Agencies

***Truth is the foundation of trust and security in government. Agencies need reliable information to conduct their operations, enforce the law, maintain public safety, and safeguard their own people and resources.***

WZ offers Federal agencies a highly configurable interviewing training program that can be adapted for any agency’s training demands. All interview training packages are built around WZ’s scientifically based, field validated and legally defensible non-confrontational methodologies. WZ’s expert instructors have extensive operational and training experience. These highly-skilled interviewing professionals are ideally suited to providing Federal officers, investigators, HR specialists and analysts with a rich and rewarding training experience.

- Federal Bureau of Investigations
- Federal Air Marshal Service
- National Security Agency
- Social Security Administration
- Transportation Security Administration
- INSCOM
- USCIS
- U.S. Department of Labor
- Diplomatic Security Services
- U.S. Army National Guard

WZ is proud to be a designated GSA Contract Holder (#GS-02F-0058M)

### HOST YOUR OWN CLASS

A WZ contracted seminar offers the agency a specific number of attendees at a fixed rate. This allows an organization to estimate its costs accurately and to train more investigators at a reduced cost. The participants who attend the contract programs are employees of the contracting organization or agency. Investigators from other agencies may be invited at the discretion of the contracting organization.

### WZ goes the extra mile to ensure your training fits your agency's needs:

- Seminars can be scheduled to accommodate preferred dates or around organizational meetings to make the most of travel costs.
- WZ customizes the workshop to achieve targeted objectives designed by your organization and leadership teams.
- WZ instructors are Certified Forensic Interviewers (CFI) and internationally recognized subject matter experts
- The client controls the logistics to ensure maximum value and ROI (location, start & finish time, ratio of workshop to lecture, specific needs, etc.)
